Software Testing

Test Design

- Based on Solution Design
- Based on Acceptance Criteria
- Based on Road Map or Matrix (Regression Testing)

Test Execution

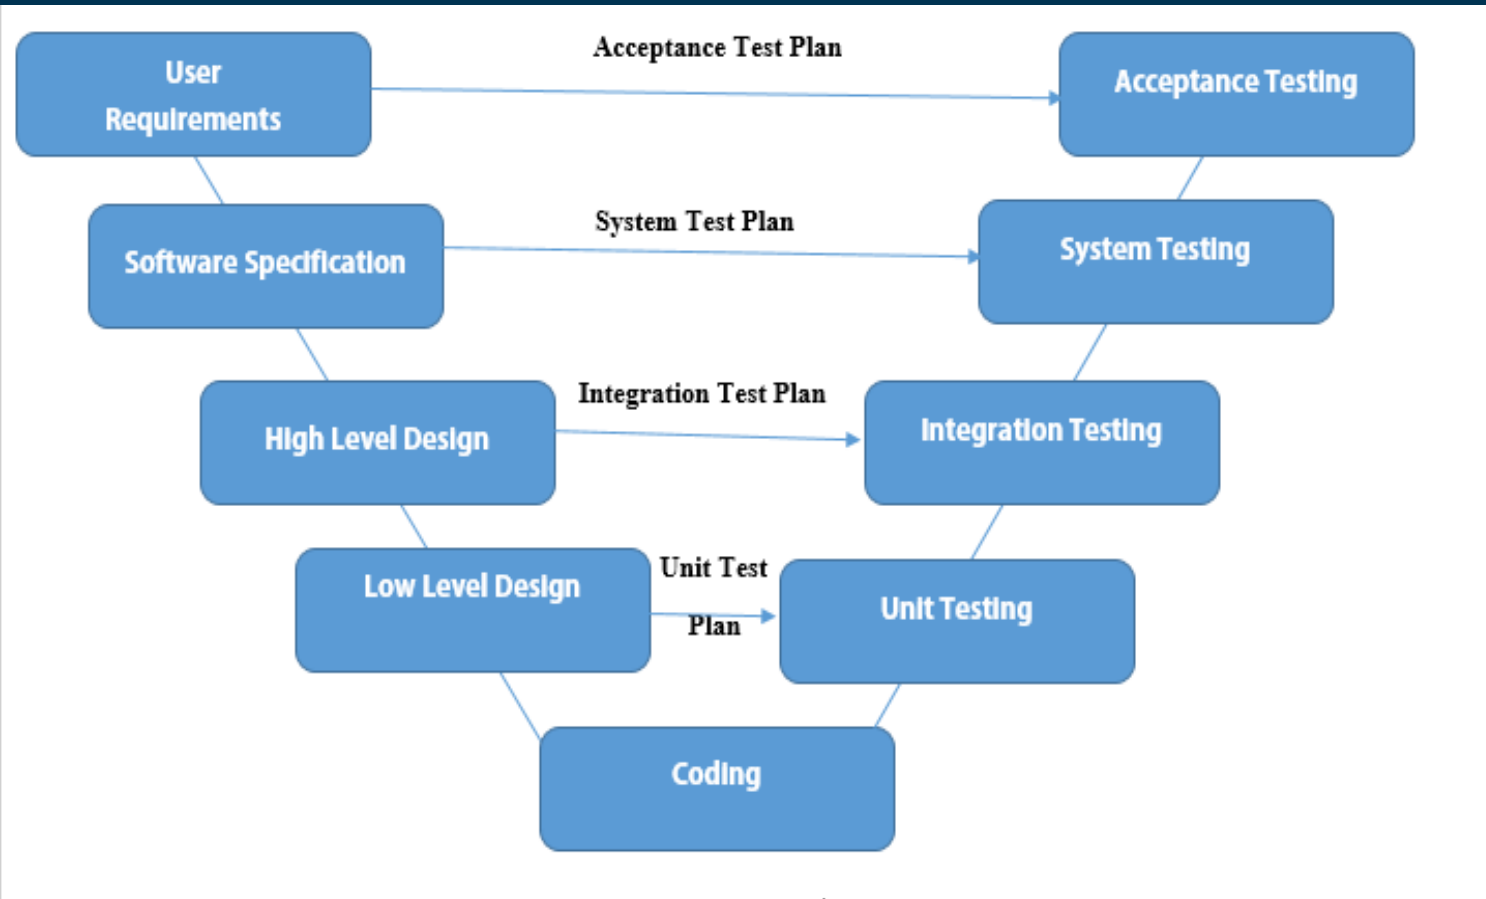

- Acceptance Testing (US/SD)
- Regression Testing
- Bugfix testing
- Exploratory Testing
- Sanity Testing
- Interface Testing
- Configuration Testing

Bug Reporting

- Bug isolation
- Bug reporting
- Follow up
- Re-testing

Testing Environments: (Build test, Integration, UAT, Pre-Prod, Production)

Testing throughout SDLC

- Familiarity with both Agile and Waterfall methodologies in all levels of testing throughout SDLC
- Experience in Build, Integration, System and Acceptance testing
- Strong capacity to convert Design, Specifications and Requirements into executable test cases
- Good communication both written and verbal is critical when dealing with team members with different levels of experience and technical knowledge

Testing is more than bug reporting

- Experience in Client demo's
- Familiarity with creation of User Manuals
- Several Years of experience in User Training and Coaching
- Participation in QA Quality Office to ensure Testing Compliance

Front-end testing

Platforms:

- Mobile Apps iOS and Android
- Ecommerce and Banking websites
- Logistics planning tools Desktop and Browser

Test Level:

- Build tester: Validating components and features based on AC or SD (Work Order or User Story Level)
- Integration & UAT Tester: Validating features based on requirements (Epic & Requirements level)
- Regression Testing (Transversal Quality Office)

Tools:

- Browser Devtools, BrowserStack, Perfecto, JIRA, Confluence, Drupal(CMS)
- Xray, HP QC / ALM, Testlink, Firma, Invision, Zeplin
- Google Chrome Extensions: WAVE, GTM/GA DEBUG, MeasureMate

Methodologies:

- Agile, Waterfall

API & Back-end Testing

Platforms:

- Mobile Apps iOS and Android
- Ecommerce and Banking websites

Tools:

- Charles Proxy (POST & GET calls)
- Postman (POST & GET calls)
- DevTools (Network calls)
- MySQL (Queries: SELECT, INSERT)
- Cronjobs in SAP Hybris
- Drupal (CMS) Configurations

Test Automation

4 months Training:

- Using Java with Selenium Webdriver
- Cucumber (Gerkin language)
- Xpath & CSS locators for Browser

Tools:

- IntelliJ
- Eclipse

LOCALIZATION

Ongoing:

I help businesses expand their reach by localizing their website content for the Finnish market. I ensure that the content is not only translated accurately but is also culturally relevant to the target audience in Finland
